The Ethics Of Confucius

Synopsis

This is a study of the ethical system presented in the Confucian texts, organized by topics, such as What Constitutes The Superior Man, Self-Development, General Human Relations, The Family, The State, Cultivation Of The Fine Arts, and Universal Relations. "At the age of seventy, Shuh-liang Heih, the father of ten children of whom but one was a son and he a cripple, sought a wife in the Yen family where there were three daughters. The two elder of them demurred when apprised by their father of the old man's suit; but the youngest, Ching-tsai, only seventeen years of age, offered to abide by her father's judgment. The following year Confucius was born and three years later she was a widow."

Excellent condition, prompt delivery. Thank you.I ordered this book because I was looking for a particular quote. And I found it.But it took a lot of hunting. I didn't read the rest of the book as the text/translation was too scholarly or labored for me.

The Ethics of ConfuciusIf today's business and corporate world would follow the philosophy of Confucius there would not be all the ethical problems that exist. A great read and lots of questions to think about. If you want to learn ethics read this book!
