What a great book, Even though I'm not a hunter (but grew up where waterfowl hunting was prevalent) I thoroughly enjoyed this book. Donald Webster has written a book I'm sure not many people would ever think to write about. This book about waterfowl hunting tells of a mans everyday experiences regarding duck, goose, and even deer hunting as he goes through life. It's straight talk and easy to read. Sometimes humorous, sometimes serious, and sometimes very touching. Donald being very knowledgeable regarding the sport does talk of different guns and equipment, etc. however don't let that be of concern because it does all come together very well. I was very enlightened on something I new nothing about. Plus, the woodcut artwork though out the book adds to its enjoyment.

My uncle has been an avid duck hunter since he was 17 years old. He probably over the years has had every monthly magazine and book ever in print that he could find. It is really difficult for me to find a present for him, until now. I was on and there it was! He loves it!! The book is written by a man who like my uncle started hunting as a young man and he shares lots of his duck hunting adventures. Just the thing for a gift and you gets lots of thank yous too!!

I gave this book as a gift to my duck-hunting husband. While he felt that a couple of the chapters were a distraction to the flow of the book, he still found it an enjoyable read. That said, he would recommend it to anybody even remotely interested the sport.

Being as I'm a waterfowl hunter roughly the same age as the author, I can relate to many of his situations and stories. It's a good read even though I don't hunt in any of the areas Don has hunted. The stories are about fun with your favorite dog and the camaraderie with your hunting companions. I would recommend this light hearted book to all waterfowling people.

My son is a recent convert to duck hunting, so bought this for him. He couldn't put it down. I'm not a hunter, but a read a couple chapters and found it very interesting. The author has an easy and engaging writing style, just like sitting down with an old friend and sharing your favorite stories. We

are fans!

As a die hard waterfowler, I absolutely loved this book! This is a must read for all hunters. If you aren't a duck hunter, you might be after reading these tales. I finished it in two days and loved every page.

Entertaining, funny and certainly one that describes what most duck hunters experience. I see myself and duck hunting comrades in many of the same situations and myself in all of them. A book any Duck Hunter can identify with.

I thought the book was awesome. I am not much of a reader but could not put this down. If you like nostalgia and listening to cool old stories get this one. Very relatable to most waterfowl hunters I know. Don E webster rocks!
