Chapman Navigation Rules: International - Inland (Chapman's Guide To The Rules Of The Road)

Synopsis

This is the clearest, most fully illustrated version of the navigation rules that every captain must have on board—in fact, boats 12 meters (or 39 feet) and longer are required to carry a copy. For years, the United States Coast Guard has produced a guide to operating vessels safely and lawfully in both international and inland waters. But its language is legalistic, complex, and not always very comprehensible. Chapman's™ easy-to-read edition has exactly the same information, but with additional illuminating commentary by Editor-at-Large Dan Fales; an explanation of many of the rules in simple, lucid detail; and advice on real-world application. With eight more illustrations than the Coast Guard's™ book, the manual looks better than ever, too. No matter whether you navigate a small sailboat, motorboat, or spacious yacht, you won't want to head onto the water without it.

Book Information

Series: Chapman's Guide to the Rules of the Road

Customer Reviews

Chapman Navigation Rules: International - Inland is a book captains of larger sailboats need to keep on their sailboats. I keep my Chapman Navigation Rules with my copy of Chapman Piloting & Seamanship.

Great book, really does a wonderful job of going into detail and sighting examples of the ROR. Though this is NOT a substitute for having the true COLREGS on your bridge, it is still a great learning tool and a must read for anyone spending time on the mighty (or not so mighty) seas.

Great book, because I actually assisted with ship navigation while in the Army. The rules of the road are a must to know. This book is the best.

Great book. Simple to use and written clearly. New to boating and it has been great for understanding and learning the rules of the water.
