The organization of this textbook is great! It is very easy to read as far as textbooks go. One thing I really like in terms of facilitating a close reading of the information is that the beginning of each chapter gives you 5 or so key questions that will be answered throughout the chapter. If you can answer those questions by the end you have a good grasp on the material. It is on the shorter end as far as textbooks go, and does not require extensive note taking to absorb the materials. It is written in a historical format.
