# Gurps Cyberworld: High-Tech Low-Life In The One-And-Twenty

## Synopsis

GURPS Cyberworld is your guide to the world of the One-and-Twenty, where the United States is under the totalitarian hold of the Provisional Government, the cities are floundering in their own decay and technology races faster and faster. This book has everything players and GMs need to explore a dangerous and brutal world. If you're quick enough, you can outwit the black-clad Nerks, get enough cred and connections to fix yourself up with some street cyberwear, and maybe even jack into the global net and poke around for some easy loot. But if the korp console jockeys catch you in part of the matrix, you'll be dodging zeromen for the rest of your short life.

## Book Information

Paperback

Publisher: Steve Jackson Games; 1st edition (June 1993)

Language: English

ISBN-10: 1556342357

ISBN-13: 978-1556342356

Product Dimensions: 8.4 x 0.4 x 10.9 inches

Shipping Weight: 14.4 ounces

Average Customer Review: 3.7 out of 5 stars [See all reviews](#) (3 customer reviews)

Best Sellers Rank: #1,736,305 in Books (See Top 100 in Books) #127 in [Books > Science Fiction & Fantasy > Gaming > GURPS](#)

## Customer Reviews

GURPS Cyberworld goal is to be about 50 years in the future, but before GURPS CyberPunk. Cyberworld is a setting where cyberwear technology is only in the hands of the wealthy and not always guaranteed bug free. Cyberworld is more bullets rather than lasers and gyroscopic rifles. GURPS Cyberworld focuses on the flavor and setting aspects of running a Cyber campaign, while spending almost no time on characters or rules. Cyberworld is not stand-alone because it requires other GURPS books for characters, combat rules, and vehicle rules. Cyberworld refers to other GURPS books such as CyberPunk, High Tech, UltraTech, Vehicles, and Terradyne. Overall, it is ok, but not great. Useful if this is your genre. Chapter 1 - 12 pages - "World on Edge" - The flavor overview of the world. Rating: Great if you are wanting to use the world, fair if not. Chapter 2 - 6 pages - Campaigns and Characters - Rating: Superb but way too short. Chapter 3 - 20 pages - The United States. High points are about Scales of Citizens, The Uniform Code, and Citcards. Rating: Good if you are wanting to use the world, fair if not. Chapter 4 - 12 pages - Geopolitical. Basically the

rest of the world. Rating: Fair if you are wanting to use the world, useless if not. Chapter 5 - 14 pages - Crime and Punishment. Best part is its section of rackets. Rating: Good. Chapter 6 - 9 pages - Culture. Rating: Fair. Chapter 7 - 16 pages - Technology. Rating: Good. Chapter 8 - 15 pages - "The Net" (Internet). Rating: Fair. I had some hope for this section, but seems too dated and simplified.

Steve Jackson Games has done it again. Yet another excellent roleplaying supplement has come off their press. Cyberpunk has all sorts of things to spice up your GURPS game. There is one problem though: There is not enough room in a 128 page book to cover the breadth of the cyberpunk genre. While providing an excellent introduction to cyberpunk roleplaying, it does not have the depth of other supplements. If one really wants good cyberpunk in GURPS, buy Cyberworld with this one.

Whether you just like to read or you are going to use it as a resource, this book is going to be good.
