Anatomy Of The Sacred: An Introduction To Religion (6th Edition)

Synopsis

For one-semester, undergraduate courses in Introduction to Religion and Comparative Religion, and more advanced courses dealing with issues in the theoretical study of religion. This comprehensive introduction to the nature and variety of religious phenomena, belief, and practice (1) explores the issues in religious studies, (2) examines the universal forms of religious experience, (3) offers a cross-cultural study of a broad range of classic types of religious belief and practice in terms of the seven basic concepts of a religious world view, and (4) surveys the challenges faced by religions today.

Customer Reviews

Any book that states (in the 6th edition!) that Buddhist release is called "moksha" (p.143) needs some serious editing. Moksha is the goal of Hinduism, and refers to a perfect union of Atman and Brahman, both concepts which the Buddha rejected. How did this make it through FIVE EDITS? It seems the emphasis in producing new editions has been less on improving the text than on making more money. If you're going to sell books to college students for exorbitant prices, at least don't give them 6 editions of ongoing misinformation.

This is a dense book. I liked it enough, used for a college course, and was enthralled with the subject matter. My only negative issues was in regards to the Kindle formatting. It's hard to cite this book and get an MLA citation with the way that it has been formatted for digital print. Not only that, the cost was insane. It's a must read though.

It doesn't provide real page numbers. However, it comes in handy for Intro to Religion, when you are searching for a word or topic you can just plug it into the search engine. Better than purchasing a used copy, just get the digital copy. Its worth it.

Be careful, my book was missing 3 chapters when I received it and didn't realize it until it was too late.

This was one of my favorite courses, with my favorite professor, and that makes this one of my favorite books! Very clear and informative.

I recommend. It is great and teaches you about the structure of many religions. Very nice, well worded, unbiased book.

book was in terrible shape. excepted much better for the price

Book content is too prolonging. Was required so got it anyway
