Customer Reviews

Ranger Rick National Parks! by Stacy Tornio and Ken Keffer is a wonderful bite size trip into many of the US National Parks. Anyone who enjoys reading the *Ranger Rick* magazine would love this

book. While it does not go into great depth on any one park, the book gives just enough information bites to pique any child's curiosity. I liked the magazine format of the pages with the photographs. The type of information chosen would be perfect for elementary readers. Not too wordy but not lacking either in the information, just a right balance between text and photos. As an elementary educator I appreciate the interest that this would generate for readers. I enjoyed the top fact, top things to do, and what to watch for. I also like the set-up of the book with over 50 parks listed by regions with an easy to read clear map. Having visited several of the parks, I think it is right on the money and also worth the money for young readers to be arm chair explorers through reading this book. I thought The publisher through Net Galley provided a copy.
