Transport Equations In Biology (Frontiers In Mathematics)

Synopsis

This book presents models written as partial differential equations and originating from various questions in population biology, such as physiologically structured equations, adaptive dynamics, and bacterial movement. Its purpose is to derive appropriate mathematical tools and qualitative properties of the solutions. The book further contains many original PDE problems originating in biosciences.

Book Information

Series: Frontiers in Mathematics

Paperback: 198 pages

Publisher: Birkh user; 2007 edition (February 22, 2009)

Language: English

ISBN-10: 3764378417

ISBN-13: 978-3764378417

Product Dimensions: 7 x 0.5 x 10 inches

Shipping Weight: 14.9 ounces (View shipping rates and policies)
