## Customer Reviews

VERY INFORMATIVE! A well written, well researched book. This supports a healthy lifestyle and a more balanced life. The book discussed the subject in an interesting and appealing way. This is a wonderful, informative and interesting read. GOOD READ!

The book is more of faith than science. I bet this is a fantastic addition to believers of the ancient forms of healing specifically Reiki which the author claims to be peaceful, gentle means of healing the body, mind and soul. This is a very detailed book, The book explained how Reiki is considered to be a universal life force energy. It relates how each energy differs from each person and each energy is interpreted. The energy of Reiki is not just within the body but you can actually relay this energy to anything that helps you feel better by the time you will use them. It contains everything there is to know about the exercise and everyone and anyone will easily understand its contents as this book is very precise yet very informative. I would recommended this book.

Reiki is a powerful non-invasive spiritual tool of healing. And this healing is not only emotional but physical healing as well. I have seen real examples in life where patient was all well just because of reiki. I always wanted to learn more about reiki, so picked up this book to give it a try. And this book

exceeded all my expectations. Book has rich content about reiki which is easy to understand even for beginners. Highly recommended book.

This book contains information about the healing of Reiki. I'm not so familiar what do the Reiki can contribute to the person, but this book explains to me that Reiki have energy that can heal and can also be a stress reliever. There's a lot of healing techniques here that we can practice it so that we can experience what do Reiki can do. And I'm want also to do it. Highly recommend this book!

I was unsure of how Reiki and meditation could help introduce me to a healthier lifestyle but this book definitely changed my perception. There's more to it than I first realized and I am glad that Antonio's book shed some light to the matter. The book is educational and full of information about Reiki, meditation and achieving inner and spiritual maturity.

Stress tends to always be present nowadays. I can't say that I consider myself as being a fan of yoga or any other type of meditation. However, Reiki technique does sound rather unique. I am giving this a shot given the fact that the book is extremely well written, easy to understand and most of all, engaging. Now, it's time to see if I can keep doing this technique daily.

A simple book that explains everything about REIKI;from the origin to the healing power and the benefits of using Reiki meditation and chakra.It is a good book to have and read because it will teach you a lot about spirituality,faith and the secrets behind the healing power and how to properly use Reiki.

Since my last visit to a friend, have suddenly become interested to learn about implementing reiki principles. Though this book is more like an introduction, yet it presents detailed information on Reiki healing and meditation. A very helpful book to understanding reiki and it's healing better.
