Customer Reviews

I purchased these expecting to use these with my collection of Dungeon Tiles. Alas, these are very pretty but they are printed on cardstock. This makes them rather difficult to use exactly, and the design of them being confined to a 5x7 sheet means there isn't much continuous building arrangements, or open ends except on the streets. Which this is nice, it does limit what I can do with them. I don't regret the purchase, but I am going to need to do some more work to get the most use out of them.

Great product, good graphics and good quality. Much better with detail than I can draw using dry erase. I do wish there were more cards, however, with more diverse locations.

You've got a nice mix of interesting buildings here - including at least one with three stories. These would be great for urban locales that are visited multiple times. Highly recommended.

Great and quick receipt
