Working With Chemistry: A Laboratory Inquiry Program

Synopsis

An inquiry-based laboratory program for general chemistry consisting of modules that each present a scenario from the world of a chemical professional. Students build skills using important chemical concepts and techniques to the point where they are able to design a solution to a scenario drawn from a professional environment. The scenarios are drawn from the lives of people who work with chemistry every day, ranging from field ecologists to chemical engineers, and including many health professionals as well. Available for custom publishing at

<http://www.whfreeman.com/labpartnerchemistry> Create your own laboratory manual, incorporating experiments from our collection of labs, blank pages for taking notes, or even your own material. Simple, straightforward and cost-effective, the Custom Publishing program allows you to organize your own manual, receive a price quote, and have the material arrive at your university bookstore for your students to purchase like any other text.

Book Information

Spiral-bound: 550 pages

Publisher: W. H. Freeman; 2nd edition (February 20, 2004)

Language: English

ISBN-10: 0716796074

ISBN-13: 978-0716796077

Product Dimensions: 8.8 x 0.6 x 11.1 inches

Shipping Weight: 1.2 pounds

Average Customer Review: 2.0 out of 5 stars See all reviews (2 customer reviews)

Best Sellers Rank: #1,128,634 in Books (See Top 100 in Books) #85 in Books > Science & Math > Chemistry > Clinical #2814 in Books > Science & Math > Chemistry > General & Reference #3013 in Books > Textbooks > Science & Mathematics > Chemistry

Customer Reviews

The Lab book is the most ambiguous piece of material ever written to mankind. I don't suggest any Chemistry student to use this book if he wants to still enjoy the subject. With this book I've grown a strong disliking for Chemistry Lab. The book provides no clear instructions for the procedures and therefore makes lab confusing and frustrating. A WASTE OF MONEY

Needed it for school. Its helpful
