# The American Alps: The San Juan Mountains Of Southwest Colorado (Coyote Books)

## Synopsis

The American Alps explores the geologic history behind the San Juans. From basement rock two billion years old through the ebb and flow of ancient seas and successive periods of uplift, the San Juans are an open book to the history of the planet. A useful and accessible book for anyone living or traveling in the big-mountain country of southwest Colorado.

## Customer Reviews

I met Don Baars in 1974 while on a river trip down through Green River in Utah and found fun then, his writing is the same with many fun sidebars and extras on how geologists come up with the names they do. Very entertaining.
