I never knew that my eyes can be that impressive to use. A book with everything good in it. What I was impressed of, is that the way it is written. The tone is convincing and casual, yet shows you so many things that you never think of looking at. I am already feeling confident for my next date.

As a man, every man should read this book - confidence will help you in every area of life and the techniques in this book teaches you how to be more conscious of eye contact and the status your portraying to people.

Eye contacting is part of the major factors to consider in your confidence whether in the interview or delivering a speech, It tells more about trust and love or attention towards your interviewer or the Audience you are addressing. The gave a good and detailed write-up on the eye contact topic and I grabbed new information and tips to improve mine too.

I always have a hard time keeping eye contact with whoever I speak with and people often tell me it's a bad habit. I tried to do it but I really failed so I looked for ways then I found this book. Really great read! I have always had trouble looking into other peoples eyes while holding a

conversation, this book gives you the power of turning your shy, anxious eyes into wild beast confidence! I LOVE that it gives you exercises to practice on your own. Some of it is a bit risky and embarrassing but after you complete it, you actually realize your strength! I love it! I love it! I feel like a badass with so much more confidence now!

"Eye Contact Training" is a great guide not just for men but for women too. There are so many great tips on eye contact and how to use it to optimize your sexiness quotient and use it to your advantage! The sparkle in your eyes can really be enticing and inviting. Why not let your windows to the soul work for you to put a little magic in your game?

This is a superb book about eye contact and more so about the importance of self-confidence. There's a strong relation these two aspects of our lives share and it is very important to master them and make them work for you. The book is written very well and I loved the way the writer starts each chapter with a quote. The quotes used are very interesting. Overall, I highly recommend this book.
