Codex: Necrons (Warhammer 40,000)

Synopsis

Welcome, mortal, to the pages of this most forbidden tome, a blasphemous text that will guide you down the path of collecting, painting and gaming with the Necrons in the Warhammer 40,000 game. The backbone of the Necron army is comprised of metallic, skeletal warriors that never truly die. Even their most basic weaponry can strip a man to his constituent atoms in a second. Those with an inkling of the threat posed by the aeons-old Necrons fear them above all, and rightly so, for the true terror of the Necrons lies with their divine masters, whose ultimate goal is to enslave Humanity and gorge themselves on the essence of untold billions.

Book Information

Paperback: 64 pages

Publisher: Games Workshop (January 1, 2002)

Language: English

Shipping Weight: 5.6 ounces

Average Customer Review: 4.7 out of 5 stars [See all reviews](#) (6 customer reviews)

Best Sellers Rank: #1,284,238 in Books (See Top 100 in Books) #158 in [Books > Sports & Outdoors > Individual Sports > Billiards & Pool](#)

Customer Reviews

Great codex, but time ruins everything, even the Necrons. The new codex turned the Necrons into a wanky, sociable, mechanized infantry force, rather than the utterly unyielding yet occasionally VERY vulnerable juggernaut of destruction they are in this book. Not that some of the new stuff isn't good, but mostly, I feel this version was far superior. These Necrons were far more fun to play against in my opinion, with a unique vulnerability compensated for by overwhelming firepower and durability, and the only Necron player I know uses this book when we have friendly games. Though my opinions on 40k are generally considered hate speech in regards to Matt Ward's work, so take this with a grain of salt.

As I play a Necron Army I use this book all the time. I agree with the above comments, However, you can buy a new Necron Codex with all the updated information for 2004 for \$20 from Games Workshop. These books are not collector's items, there is no reason to pay \$27 for a two year old

outdated book.

When i got this book i was exspecting to just get the stats for the necrons, but when i went throgh the first pages i learned much more. this book give detales about everything on the necrons from how to paint them to what good stratagies in a game are. Their is even a part of it that lets you know how to aseemble those modles without instructions. If you think that you can get your codex for free from some internet site your wrong its more than just stats its a novel.
