Coaching Youth Hockey - 2nd Edition (Coaching Youth Sports)

Synopsis

This new edition of Coaching Youth Hockey is part of the improved generation of the American Sport Education Program's (ASEP) Coaching Youth Sports series. This widely respected and highly popular series is the best collection of youth sport-specific guides, which are grounded in positive coaching principles. ASEP, the nation's number one coaching education program, developed Coaching Youth Hockey to provide coaches with both an explanation of their role and concrete instructions on how to fulfill that role. You will find chapters on communicating with your athletes and their parents, teaching and developing hockey skills, planning and conducting practices, and coaching during games. This second edition includes a special chapter on the games approach to coaching hockey, which makes practice more fun for the kids and teaching more effective for you, the coach.

Customer Reviews

This book offers a comprehensive set of introductory materials needed for the first time or experienced hockey coach. It is useful for either ice or roller hockey. I particularly appreciated the author's including the social, communication, and motivational aspects of coaching youth sports. Full of handy checklists and drills to emphasize the needed skills, this book provides a solid foundation for developing "your own" hockey teaching and coaching program. The drills and progressions are excellent. The book would be better with more technical emphasis on skating skills and techniques. But overall, I would recommend it for any coach or parent who is close to this

fast-growing sport!

I needed to understand how to teach children under 10 the game of Hockey and start towards gaining a coaching award in this age group. This book gives me a greater understanding of what turns on a child's interest and how to maintain this interest.

I was taking a coaching class in college and used this book to supplement my class text books. Had some very good tips for new coaches and how to get the players involved. Introduced good concepts. Would recommend.
