Customer Reviews

This update is really useful for running a Jihad campaign. Using some of the information presented it can also be used to set up some information for just how the Wobbies were manipulating events behind the curtain. Some of the information is understandably not completely fleshed out so that a gamemaster can add their own details.

Excellent investment. I found the material a good supplement for the Battletech universe.

Great update supplemental

I just plain like Battletech supplements like this one. Let's you flesh out your opposing force a bit.
