# Chemistry And Biology, Volume 54 (The Alkaloids)

## Synopsis

Alkaloids are a major group of natural products derived from a wide variety of organisms, which are widely used as medicinal and biological agents. This series is world-renowned as the leading compilation of current reviews of this vast field. Internationally acclaimed for more than forty years, The Alkaloids, founded by the late Professor R.H.F. Manske, continues to provide outstanding coverage of the rapidly expanding field of the chemotaxonomy, structure elucidation, synthesis, biosynthesis, and biology of all classes of alkaloids from higher and lower plants, marine organisms, or various terrestrial animals. Each volume provides, through its distinguished authors, up-to-date and detailed coverage of particular classes or sources of alkaloids. Over the years, this series has become the standard in natural product chemistry to which all other book series aspire. The Alkaloids: Chemistry and Biology endures as an essential reference for all natural product chemists and biologists who have an interest in alkaloids, their diversity, and their unique biological profile.

## Book Information

Series: The Alkaloids (Book 54)

Hardcover: 395 pages

Publisher: Academic Press; 1 edition (April 10, 2000)

Language: English

ISBN-10: 012469554X

ISBN-13: 978-0124695542

Product Dimensions: 6 x 0.9 x 9 inches

Shipping Weight: 1.6 pounds (View shipping rates and policies)
