Shooting Back - The Right And Duty Of Self-Defense

Synopsis

The distinct staccato of automatic fire from assault rifles "followed by scattered screams" shattered the silence of the Sunday evening service. A band of terrorists burst into the sanctuary and began executing, with icy effectiveness, their heinous plans of mass murder. This church massacre would have claimed even more than the 11 lives and 53 injured recorded that day if not for one man. Armed with just a snub-nosed .38 revolver and crouching behind a pew, he dared shoot back "sending the terrorists running away with him in hot pursuit. This is the true story of Charl van Wyk and it's one that anybody who values the right to defend their life, and the lives of others, should know. Such a personal experience stirred Van Wyk to do something few have done "provide a thorough Biblical exploration of the matter of armed self-defense. He forthrightly deals with the consequences of his actions, and directly addresses the concerns that plague many God-fearing men, including: Should Christian men carry arms? When is it appropriate to defend ourselves and our families? What can Christians do when our God-given right to self-defense is being legislated away from us?

Suddenly, several terrorists entered the church with automatic rifles and grenades, causing massive destruction. Previously trained in the army he pulled his revolver from concealment and shot back at the terrorists. As soon as they heard the returned fire, they fled in their get away car. Charl describes his actions and the Christian theology that led him to end the St. James Massacre in this book.Similar titles/Authors: The Cornered Cat: A Woman's Guide to Concealed Carry by Kathy JacksonReview: I discovered Charl's story after seeing a post where he'd visited to share his story with the Virginia Citizen Defense League (a local gun rights organization). After hearing of his story I very much regretted missing him speak!Beginning this book, I knew that there were several chapters discussing the theology and philosophy regarding carrying a weapon for self defense. I worried then, that it would read like a textbook and be very dry and boring. However, that was not the case at all. Charl's book is written in gripping fashion, helping you to understand what he experienced. He details his crisis counseling group experiences and the raw emotions that he felt regarding the terrorists. One of the most enjoyable surprises was reading through his journeys after the massacre, about his interactions between some of the terrorists who issued the attack. Charl shows how we can win the world through God's forgiveness in our hearts.
