ISBN-10: 0817424083

ISBN-13: 978-0817424084

Product Dimensions: 9 x 6 x 0.8 inches

Shipping Weight: 14.4 ounces

Average Customer Review: 5.0 out of 5 stars [See all reviews](#) (2 customer reviews)

Best Sellers Rank: #3,210,765 in Books (See Top 100 in Books) #93 in [Books > Science & Math > Astronomy & Space Science > Telescopes](#) #4576 in [Books > Science & Math > Experiments, Instruments & Measurement](#) #6607 in [Books > Science & Math > Astronomy & Space Science > Astronomy](#)

## Customer Reviews

While this edition is 35 years old and some of the specific product references are a bit dated, Dr. Paul's book on Telescopes for Skygazing remains a terrific introductory text for the beginning amateur astronomer. It is clearly written for beginners by an enthusiast who had not forgotten his own first experiences with what had become his passion. Concisely written and straightforward, everyone curious about amateur stargazing really ought to give this book a shot.

great reference and visual delight to see all this great equipment....
